Month-end close checklist

Owner: finance operations. Target: books closed by the third working day.

1. Run ledger-sync for the final day of the month and confirm zero rejects.
2. Reconcile every bank account; differences over 5.00 need a named reason.
3. Review rate-watch alerts raised during the month.
4. Lock the period in the ledger. Nothing posts to a locked period.
5. Send the close summary: balances, open differences, and anything carried over.
